

Specification

Our polycarbonate fitting range offers a simplistic way to focus and intensify end points of fibre.

Ideal for internal signage, ceiling effects and complimenting star field ceilings.

The FP-CE6 is equipped with a star-shaped top in order to distribute the light around it.

Although preferably an indoor fixture it can be coupled with EndGlow fibre for outdoor applications.

The FP-CE6 is ideally used for Raw Fibre: PAF30, PAF40, PAF60 and PAF80. See our Raw Fibre specification to know more.

Technical Information

Material	Polycarbonate
Weight	0.1g
Size	21mm
Mounting Hole Size	8.5mm
Min. Fibre Size	0.75mm
Max. Fibre Size	3.2mm
